

Society of Administration of Telemedicine and Healthcare Informatics

As SATHI we are dedicated to providing quality solutions.

Our company is founded on the collaboration of a core group of highly talented and independent professionals each practicing his or her own core competencies. We each specialize in our unique fields and have achieved success as independents. Here we unite our skills in order to deliver the best possible results to our clients. We are capable of fulfilling a wide variety of promotional and communication needs. And due to our low overhead, we can provide high-end design, at a highly competitive price.

No assignment is too large or too small. We know that a great relationship might start with a small assignment. We also know how to deal with the larger projects and can bring key players on board as needed.

Ours is a very cost-effective and progressive way to providing you with the best design and communications solutions within a cohesive whole.

Our core areas of focus -----

Our client relationships are based on communication, respect, and participation. We love being your brand steward. Taking care of all the little details that make the difference. We are there for the little decisions and the big ones.

Our clients are often astonished at how fast we 'got it' and how accurately we 'see their vision'. We are accustomed to enthusiastic responses to our work. It is not uncommon for us to receive emails with 'wow' and 'love it' in capital letters with several exclamation marks following.

We aim to please and are pleased to take into account your vision for your company. We also don't hesitate to let you know when it is a...uh, er...bad idea. We want you to learn to trust us...and we figure being straight up is the best way.

We make sure you understand our decisions and our processes through project agreements, detailed estimates, no-surprise invoices and, of course, conversations.

We are consistently on or under budget, and on time with our work. Many of our clients are starting out, and we are happy to advise clients to postpone a project or change to something that would work better for them, both in the short term and long term.

We are as conscious of your bottom-line and success as our own, and while we always prefer following a project right up through production, we also are happy to let you minimize your expenses, find your own deals and manage the production yourself. Above all, we are flexible and can always find the right people to help you develop your project whatever it may be

Our goal is to help our clients succeed. We believe that our success depends on it. We deliver not only what we promise...we do more. We exceed expectations.

There is very little that we are unable to provide or help you with. Because of our structure, our experience is potentially unlimited.

Large or small we look forward to every project. We do what we do because we love it. We are a team of entrepreneurs, and understand intimately what it is like building a business.

We are just like you.

We think business as well as creative. We will give you the big agency look, at the small agency cost.
